

Marshall Cavendish Online Learning Portal Login Instructions

Welcome to Marshall Cavendish Online Learning Portal. Follow the instructions below to access your e-learning portal.

System Check

Before logging into the platform, do a System Check for the required plugins. The e-learning portal can be accessed at <http://www.mconline.vn>

On the home page, click System Check to scan for the necessary plugins in the computer or laptop.

System Check Summary

Plugins indicated in red require users to download.

Plugins indicated in green were preinstalled.

Application	Information	Status
LEAD Flash Player	LEAD Flash Player is required for Voice Recording and Text Saving features in our coursesware. Click here to update LEAD Flash Player.	DOWNLOAD
Adobe Flash Player	Adobe Flash Player is a browser plugin required for viewing animation and coursesware.	INSTALLED
Adobe Shockwave Player	Adobe Shockwave Player is a browser plugin required for the viewing of coursesware snippets.	INSTALLED
Adobe Shockwave Player II	Some older coursesware may require a previous version of shockwave. If you encounter errors like "Missing Shockwave Decompressor of Two", please download the previous version of shockwave. It can be installed with the latest version of shockwave.	DOWNLOAD
SAPPHi ActiveX Control	SAPPHi ActiveX Control is required for test question conversion and file upload.	INSTALLED
Han Yu Pin Yin Font	Notes: For teacher only. The Han Yu Pin Yin font is required for viewing Han Yu Pin Yin characters in some Chinese coursesware.	DOWNLOAD
WubiQ Math Player	WubiQ Math Player is a browser plugin required for the display of symbols created in tests in the Test Builder.	INSTALLED
Internet Explorer	Internet Explorer 6 (or later version) is required in LEAD LMS for the use of features such as the multimedia editor in the Test Builder.	INSTALLED
Adobe Acrobat Reader	Adobe Acrobat Reader is required to read pdf documents.	INSTALLED
Apple QuickTime Player	Apple QuickTime Player is required for viewing QuickTime movies and coursesware with embedded QuickTime movies.	INSTALLED
Java Virtual Machine	The Java Virtual Machine is required to view resources that have Java applets embedded within the resources.	INSTALLED
